This screenshot shows the Jira Backlog view for the 'My Software Team' space. The left sidebar contains navigation options: For you, Recent, Starred, Apps, Plans, Spaces, Recent, My Software Team (selected), More spaces, Filters, Dashboards, Teams, Goals, Projects, and Customize sidebar. The main content area displays two sprints: 'SCRUM Sprint 1' (28 Aug - 4 Sep, 2 work items) and 'SCRUM Sprint 2' (28 Aug - 4 Sep, 3 work items). Each sprint is a table with columns for item name, status, priority, and assignee. In Sprint 1, 'SCRUM-6 Coffee Selection' and 'SCRUM-7 Size Selection' are both in 'Done' status with a priority of 3 and assigned to 'Customer Orderin...'. In Sprint 2, 'SCRUM-9 Drink Customization', 'SCRUM-11 Place Order', and 'SCRUM-10 Order Review' are all in 'Done' status with priorities of 3, 3, and 2 respectively, all assigned to 'Customer Orderin...'. A '+ Create' button is visible at the bottom of each sprint list.

Sprint	Item	Status	Priority	Assignee
SCRUM Sprint 1	SCRUM-6 Coffee Selection	Done	3	Customer Orderin...
	SCRUM-7 Size Selection	Done	2	Customer Orderin...
SCRUM Sprint 2	SCRUM-9 Drink Customization	Done	3	Customer Orderin...
	SCRUM-11 Place Order	Done	3	Customer Orderin...
	SCRUM-10 Order Review	Done	2	Customer Orderin...

This screenshot shows the Jira Board view for the 'My Software Team' space. The left sidebar is identical to the previous screenshot. The main content area displays a Kanban board with four columns: 'TO DO', 'IN PROGRESS', 'IN REVIEW', and 'DONE'. The 'DONE' column contains two items: 'Coffee Selection' (SCRUM-6) and 'Size Selection' (SCRUM-7), both with a status of 'Customer Ordering Experience' and a priority of 3. The 'IN PROGRESS' and 'IN REVIEW' columns are empty. A '+ Create' button is visible at the bottom of the 'TO DO' column. The board is titled 'Complete sprint' and includes a 'Group' dropdown and a '+ Create' button.

Column	Item	Status	Priority	Assignee
DONE	Coffee Selection	Customer Ordering Experience	3	Customer Orderin...
	Size Selection	Customer Ordering Experience	2	Customer Orderin...

7.

The screenshot displays a Jira interface for a team named "My Software Team". The top navigation bar includes a "+ Create" button and a "Spaces" section. The "Backlog" tab is selected, showing two sprints. The first sprint, "SCRUM Sprint 0" (28 Aug - 11 Sep), has two items: "SCRUM-1 Task 1" (To Do, Sep 2) and "SCRUM-2 Task 2" (In Progress, Sep 7). The second sprint, "SCRUM Sprint 1" (Add dates, 2 work items), has two items: "SCRUM-6 Coffee Selection" (In Progress, 3 points) and "SCRUM-7 Size Selection" (In Progress, 2 points). The interface also shows a search bar, a user profile, and a "Complete sprint" button for the first sprint.

1. Did your estimations reflect the actual effort?

Yes. The story points gave a reasonable estimate of the effort. The smaller story, **Size Selection**, was assigned 2 points, while **Coffee Selection** was assigned 3 points because it involved more options.

2. Was your backlog well-prioritized?

Yes. The backlog was prioritized according to user impact. **Coffee Selection** was given High priority, while **Size Selection** was given Medium priority.

3. How did your simulated sprint align with your plan?

The sprint followed the planned workflow. The User Stories were moved from **To Do** → **In Progress** → **Done**, and all planned work was completed within the sprint.

4. What insights did the burndown chart give about your team's capacity?

The burndown chart showed that all **5 story points** planned for Sprint 1 were completed. There was no incomplete work or scope change, indicating that the planned workload was manageable.

The handout explains that the burndown chart is used to observe completed story points, remaining work, delays, and team capacity.
